## **LA MANCHA TO INCREASE ITS STAKE IN GREENHEART GOLD TO 19.9% THROUGH A STRATEGIC PRIVATE PLACEMENT**

**London, 17 April 2026** – La Mancha Resource Capital LLP (“La Mancha”), portfolio manager to La Mancha Resource Fund SCSp (the “Fund”), is pleased to announce that the Fund will increase its shareholding in Greenheart Gold Inc. (TSXV: GHRT; OTCQX: GHRTF) (“Greenheart” or the “Company”) from approximately 4.6% to 19.9%. The Fund is to acquire the shares at a price of C\$1.00 per share. The private placement is being undertaken alongside participation from G Mining Ventures Corp. (TSX: GMIN) (“G Mining”), which is expected to subscribe on a pro rata basis to maintain its ownership interest, as well as other supportive shareholders, including members of the Company’s board and management. The subscription is expected to close on or about 30 April 2026.

La Mancha’s increased investment reflects its continuing conviction in Greenheart’s team, its existing portfolio of exploration project, and its broader exploration strategy. Since La Mancha’s entry investment in 2024, Greenheart has rapidly assembled a significant and highly prospective land position in Guyana and Suriname, supported by strong in-country relationships that are critical to sourcing, securing and consolidating land in the region. The Company has also moved quickly to advance exploration across its Guiana Shield portfolio, with strong recent drill results and follow-up drilling at Majorodam, alongside new mineralised trends at Igab and initial trenching success at Tosso Creek.

**Jack Lunnon, Chief Technical Officer at La Mancha, commented:** *“Greenheart’s deep in-country relationships, access to highly prospective and underexplored geology, and disciplined, technically led approach to exploration and capital allocation set them apart. In frontier jurisdictions such as Suriname and Guyana, successful discovery requires a combination of geological rigour and strong operational execution. The recent positive drill results at Majorodam, together with encouraging trench results at Igab and Tosso Creek, demonstrate Justin and his team’s ability to deliver on both fronts. We are excited to support the team as they accelerate exploration and pursue the next generation of discoveries.”*

As part of this transaction, La Mancha will enter into an investor rights agreement with the Company, including board nomination rights.

### **About Greenheart Gold Inc.**

Greenheart Gold is an exploration company that builds on a proven legacy of discoveries within the Guiana Shield, a highly prospective geological terrain that hosts numerous gold deposits yet remains relatively under-explored. The Company is led by former executives and members of the exploration group of Reunion Gold, a team that was most recently noted for the discovery and delineation of the multimillion-ounce Oko West deposit in Guyana. Greenheart Gold is building on its management's technical knowledge, strong contact base and previous success from exploring in the Guiana Shield to assemble, maintain and explore a portfolio of early-stage exploration projects in Guyana and Suriname that are prospective for orogenic gold deposits.
